

05.01.21 Maths - Ordering Numbers

Today we are looking at ordering numbers. We have done lots of this before Christmas. This task does not need printing, this can be completed in your green books that were sent home previously in the term.

- 1) Write the numbers one to ten on the number line below. I have written the first number for you.

0										
---	--	--	--	--	--	--	--	--	--	--

- 2) Collect objects around your house and make groups of:

- 4
- 7
- 9
- 10
-

We would love to see pictures of these once you have made your groups.

Challenge: Once you have made your groups, can you write down the number that is one more than this.
